Premier Football League Season - 07

THE LEAGUE

The Premier Football League - Baby League is an AIFF (All India Football Federation) affiliated league, which has all the elements of the most popular game of the world; fun, competition, skills, teamwork, mentoring and bonding with your child. It is child-first and child focused..The child-first approach also makes it one of the finest player development programs. Everybody likes to win, but developing successful players and people is what's fundamental to the PFL.

The league has age appropriate small-sided games. Small-sided games for children allow more touches on the ball and a more successful football learning environment. With children's natural joy in running and kicking, football builds on these skills and adds in techniques to control the ball and work as a team. It also encourages creative decision making and strategic thinking. It's a fast game that keeps each player moving the entire time. The league is played over 14 matches over 7 weekends.

FORMAT

Categories	Age Group	Year of Birth	Game Format
